

## Custom Shade Appointments

Please visit our website at [www.RutherfordDentalLab.com](http://www.RutherfordDentalLab.com) to schedule all custom shade visits for your patients. From there, you or your patient can schedule their appointment as needed. Please allow at least one day after the preparation for the patients teeth to re-hydrate or you may schedule the patient to come in before the preparation appointment to avoid dehydration of their teeth.

Our custom shade schedule is typically Monday through Friday 9am to 3pm. Each appointment will take roughly 15 minutes where we take 4 different photos and upload them to our Elab Prime software to calculate a custom porcelain recipe to match the patients existing teeth. Please check the calendar for any days we have blocked off for continuing education. Patients that walk in without an appointment will have a \$50 charge added to their invoice.

Thank you for your continued trust in working with Rutherford Dental Lab and serving your patients.
